Fácil de instalar

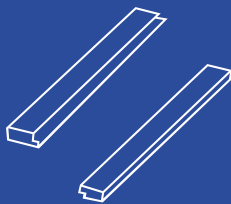

Resistente a
los arañazos

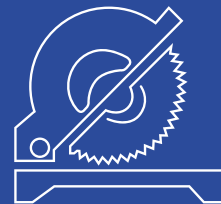

HERRAMIENTAS DE INSTALACIÓN

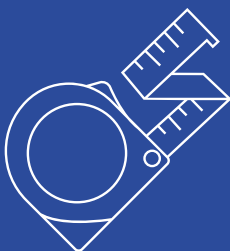

Panel de pared

Molduras coordinadas

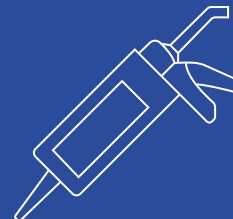

Sierra circular

Cinta metrica

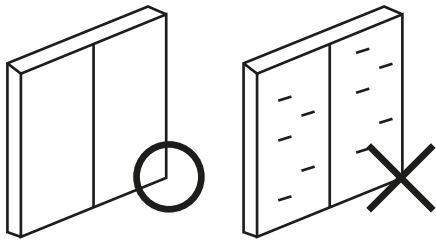

Pistola de clavos

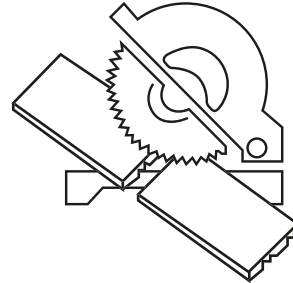

Pegamento

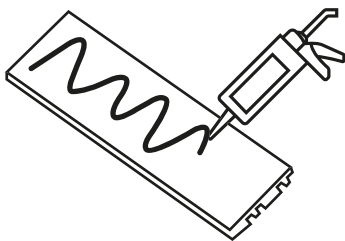

INSTALACIÓN

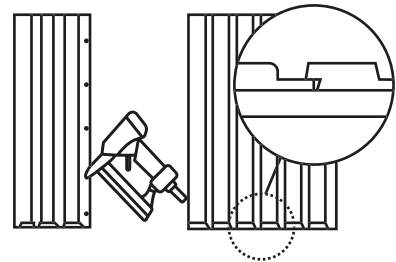

- 1** Se recomienda un trabajo previo con paneles de yeso o madera contrachapada antes de la construcción. Retire los papeles pintados de las paredes antes de la construcción.

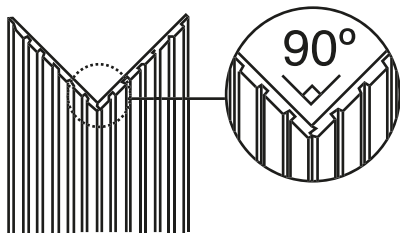

- 2** La sierra circular se puede utilizar para cortar.

- 3** Aplique pegamento sin clavos en la parte posterior del panel de pared.

- 4** El panel de pared se puede instalar tanto en dirección horizontal como vertical. Aplicar la pistola de clavos en el borde de la lengüeta para ocultar las marcas.

- 5** Para las esquinas, combine las dos ranuras.

- 6** Se pueden usar molduras coordinadas para lograr un acabado limpio y agradable.

MODELOS

**Modelo
CAFÉ**

120 x 2880 mm

**Modelo
CAPUCHINO**

120 x 2880 mm

**Modelo
CHOCOLATE**

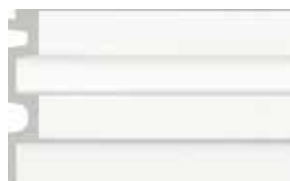

120 x 2880 mm
